## TEACHING EXPERIENCE

---

<b>Introduction to Computational Models of Behavior</b>	UC Irvine
<i>Teaching Assistant</i>	Spring 2021

Contributed Python code and wrote solution sets for assignments. Developed final project assignment in conjunction with the instructor. Guided students through basic programming concepts and demonstrated programming tools. Graded all assignments and gave feedback for Python or MATLAB code.

<b>Honors Research in Experimental Psychology</b>	UC Irvine
<i>Teaching Assistant</i>	W/Sp 2019, F/W 2021

Oversaw the research projects of 4 groups of 3-4 students each, providing guidance on experimental design and data analysis, as well as some programming help. Taught lab sections. Graded presentations, final papers, and developed a peer review form for the course.

<b>Introduction to Psychology</b>	UC Irvine
<i>Teaching Assistant</i>	Fall 2018

Taught 2 discussion sections per week of about 20-30 students each, held office hours, and did extra prep work for assignments and exams at the instructor's request.

<b>Perception Science Internship</b>	Berkeley, CA
<i>Teaching Assistant</i>	April – August, 2016

Taught MATLAB to high school students and directed their projects for a summer internship program. Additionally programmed and collected data for an experiment that investigated whether perceptual learning improves facial averaging skills in humans.
